Incorporating Bloom's Taxonomy

- Include questions that test recall (e.g., 'Who says?').
- Integrate comprehension questions (e.g., 'What does this metaphor suggest?').
- Encourage analytical thinking with interpretive questions (e.g., 'What is the significance of Hamlet's hesitation?').

Providing Plausible Distractors

- Distractors (incorrect options) should be plausible to challenge students.
- Avoid obviously incorrect options that do not require critical thinking.

Including Explanations and Rationales

- For self-study, provide detailed explanations for correct and incorrect answers.
- This reinforces learning and clarifies misunderstandings.

Aligning Questions with Learning Objectives

- Ensure questions reflect the key themes, characters, and literary devices studied.
- Use questions to reinforce core concepts rather than trivial details.
